| | Hora den Dulk hora@dendulk. fsnet.co.uk | 4 | 4 | 3 | 4 | Although Hora did a v small job - fitting a bib tap - it emerged from our conversations that his main expertise is fitting solar water panels and doing the related plumbing. He has a qualification in this area from The Renewable Energy Centre. |

Although I don't think he would describe himself as a 'green builder', he was very sympathetic to our requests (including for example working around and insulating the existing bath rather than replacing it) and he also replaced insulation panels before tiling. |
